Folding Frame Clothesline Pivot Replacement Product Manual

- Remove the large bayonet cap and the pivot bush securing the arms to the mount brackets by turning anti-clockwise with a 6mm Hex Key. Carefully remove the arm. Do not disassemble the strut.
- Disassemble the new pivot washer by loosening the nut and bolt.
- Attach the new large pivot bush(s) and pivot washer(s) to the top of the mount brackets and arms as shown. Refer **Fig. 1** or **Fig. 2**. Locate the lock nut with nylon ring facing outwards fully inside the pivot washer. This may require some tapping to push right in to the bottom.

Ensure the orientation of the pivot bushes match the picture. On the Duo the pip on the outer bush must fit into the lower hole of the mount brackets and the pip on the inner bush must fit into the upper hole of the mount brackets. Refer to **Fig. 1**.

- Hold components together keeping pips located in holes. Push the bolt through all components and fully tighten using the 6mm Hex Key. Ensure the bolt threads protrude through the nylon of the nut.
